

**BTS Skills Gap Initiative: Proposed Timetable of Modules for 2025 and 2026**

**1) Module structure and content**

Modules are being developed in partnership with subject matter experts. The final structure of each Module will therefore vary, but is likely to include a number of live webinars with an in-person Workshop where appropriate.

**2) Proposed Timetable of Modules for 2025**

Module		Timing
<b>Core Module 2</b>	PBK Modelling	February/March 2025
<b>Core Module 1 [repeat]</b>	An introduction to the principles of regulatory toxicology: present and future	June/July 2025
<b>Core Module 3</b>	Genotoxicity and Mutagenicity	July/September 2025
<b>Core Module 4</b>	Quantitative structure-activity relationships (QSARs)	September/October 2025
<b>Core Module 5</b>	Developmental and Reproductive Toxicology (DART)	November/December 2025
<b>Supplementary Module 1</b>	Ecotoxicology and Environmental Toxicology	March/April/May 2025
<b>Supplementary Module 2</b>	Safety Assessment for different regulated areas, to include pharmaceuticals, cosmetics, agrochemicals and industrial chemicals	May/June 2025

**3) Proposed Timetable of Modules for 2026**

Module		Timing
<b>Core Module 6</b>	Target organ toxicity, integrating NAMs	February/March 2026
<b>Core Module 7</b>		May/June 2026
<b>Core Module 8</b>		July/September 2026
<b>Core Module 9</b>	Carcinogenicity and NAMs	September/October 2026
<b>Supplementary Module 3</b>	Inhalation Toxicology	March/April 2026
<b>Supplementary Module 4</b>	NAMs and Next Generation Risk Assessment	November/December 2026
